overkill's the walking dead s02e01 no sanctuary

Either buy the standard edition or deluxe upgrade because this greedy company thinks that selling season 2 in parts is a good business practice and if anyone buys season 2 in this format expect to pay \$72 for 9 episodes which is honestly a absurd inflation of what it really is I would in my opinion stay away from any Overkill/Starbreeze products they have in recent news have shown that they are a company who is really only about the quick buck.. I liked it.. This game is beyond horrible and there are so many glitches. It's hard to progress because of this and several other factors. I was looking forward to customizing and using all of the weapons but the weapons and attachments degrade so fast you can't even enjoy them. Now that the beta is over the player count is so low. Missions are way too hard alone. It's so unbalanced you wouldn't believe it. I'm so bummed I wasted my money preordering it months ago because i'm so broke and so is this game.. lot of Shooting in this map, can be a bit tricky in

the Church section but overall not a bad DLC.. This mission didn't satisfy me . Please develop that zombies and humans.
